

O-CAL

Introduction

Calcium is a primary constituent of all cell walls and membranes. Restrictions in the availability of Calcium will adversely affect cell division, impair the structural stability and the permeability of cell walls. Calcium enhances storage life of fruits and improve tolerance against blooms and rot in tomatoes.

O-CAL is an organic product containing 5.0% Calcium. It is specifically formulated for use as a foliar fertilizer and can be applied to all fruit and vegetable crops to improve fruit firmness, storability, colour and skin finish. In addition to Calcium, O-CAL provides essential organic acids & other supplements for better plant growth and development.

Benefits

- Rapidly penetrates with good absorption of calcium by the plant.
- Easy to mix and easy to use.
- Strengthens cell structure in plant.
- Contains no nitrogen, sulphate or chlorides
- Can be used in organic production.
- Compatible with most pesticides.
- Safe - good crop tolerance even at bud break on fruit trees
- Economical & effective.
